

**MAAIF**Ministry of Agriculture,
Animal Industry and Fisheries**MONTHLY COFFEE REPORT-AUGUST 2026****COFFEE YEAR 2025/26- ISSUE 11****Key Highlights**

A total of 737,766 60-kg bags of coffee valued at US\$ 181.7 million (UGX 678 billion) were exported in August 2026 at an average price of US\$ 4.1/kilogram, US cents 1 higher than US\$ 4/Kilogram in July 2026, and the same price as in August 2025. This indicates a decrease of 13.6% and 10.3% in quantity and value respectively compared to the same month last year (August 2025).

Farm-gate prices for Robusta Kiboko averaged **UGX 5,750** per kilogram; FAQ **UGX 12,000** per kilogram, Arabica parchment **UGX 15,500** per kilogram and Drugar **UGX 14,750** per kilogram. Mt. Elgon A and Mt. Elgon AB had the highest price registered. (US\$ 7.9 per kilogram).

Coffee exports for twelve months (September 2025-August 2026) totaled 8.1 million 60 kg bags worth US\$ 2.1 billion (**UGX 7.6 Trillion**) compared to 7.9 million 60kg bags worth US\$ 2.2 billion (**UGX 8.1 trillion**) in the previous year (September 2024 - August 2025). This represents an increase of 1.6% in quantity and a decrease of 5.2% in value.

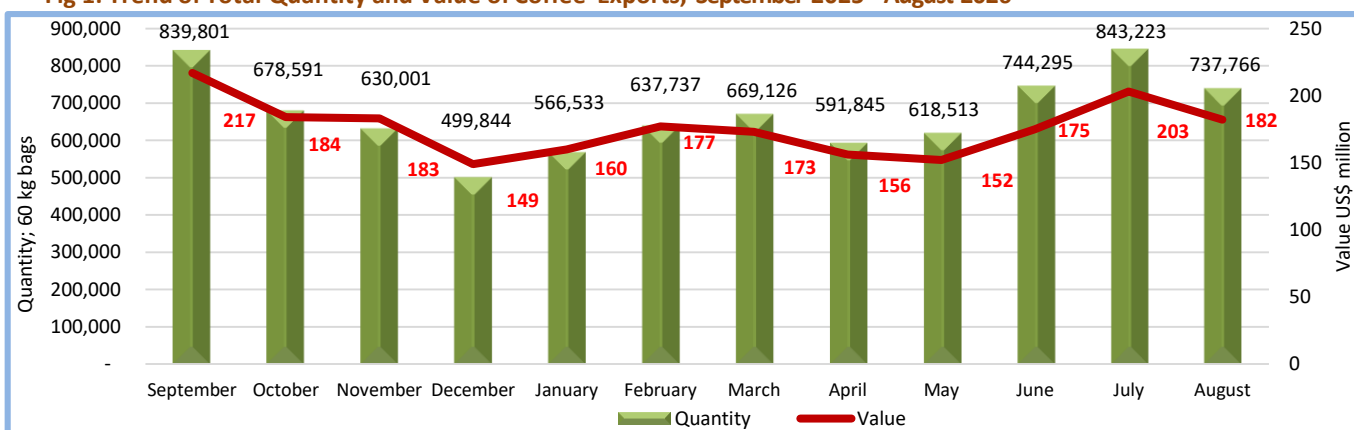

69% of the total export volume was exported by top 10 exporters with Ugacof Ltd leading in terms of market share (12%) out of 87 companies which performed during the month, lower than 71% in the month of June 2026. (**Annex 1**)

1. Coffee exports

Coffee exports in August 2026, totaled to 737,766 60-kilo bags worth US\$ 181.7 million (UGX 678 billion). This comprised of 680,945 bags of Robusta valued at US\$ 161.1 million (UGX 601 billion) and 56,821 bags of Arabica valued at US\$ 20.66. million (UGX 77 billion) (*see Table 1*). This was a decrease of 13.6% and 10.3% in quantity and value respectively compared to the same month last year (August 2025). Robusta decreased by 14.2% and 10.4% in quantity and value respectively, while Arabica exports decreased by 5.2% and 9.4% in quantity and value respectively compared to the same month last year.

Coffee export volumes during the month were lower than that of August 2025. The prices at the global scene slightly increased as El Nino concerns and tight Arabica supplies supported prices at the beginning of the month. Prices however fell on outlook of favorable weather in Brazil and expectations of increased supply.

Coffee exports for twelve months (September 2025-August 2026) totaled 8.1 million 60kgbags worth US\$ 2.1 billion (UGX 7.6 Trillion) compared to 7.9 million 60kg bags worth US\$ 2.2 billion (UGX 8.1 trillion) in the previous year (September 2024 - August 2025). This represents an increase of 1.6% in quantity and a decrease of 5.2% in value. The increase in quantity in the 12 months was due to increased production. The value however declined as global prices continue to be pressured by increased supply from Brazil and Vietnam.

2. Exports by Type and Grade

Table 2 shows coffee exports by type, grade and average price realized for each grade during the month of August 2026. The average export price was US\$ 4.1 per kilogram, US cent 1 higher than US\$ 4/kilogram in July 2026. Robusta exports accounted for 92% of total exports, the same as in July 2026. The average Robusta price was US\$ 3.9 per kilogram, slightly higher than US\$ 3.8 in June 2026. The highest price was for Organic Robusta sold at US\$ 4.2 per kilogram, followed by Screens 18,17 and 16 sold at US\$ 4.1 per kilogram.

The share of Sustainable/washed coffee to total Robusta exports was 0.5% lower than 1% in July 2026.

Arabica fetched an average price of US\$ 6 per kilogram US cents 1 lower than the previous month (US\$ 6.1). The highest price was for Mt. Elgon A and Mt. Elgon AB sold at US\$ 7.9 per kilogram. It was followed by Mt. Elgon A+ sold at US\$ 7.1 per kilogram. Drugar was sold at US\$ 6.2 per kilogram, lower than US\$ 6.3 per kilogram in July 2026 and was 37% of total Arabica exports lower than 44% the previous month. The share of sustainable Arabica exports to total Arabica exports was 4%, lower than 8% in July 2026.

6. Global Situation

World coffee production for 2026/27 is projected to reach 10.8 million bags higher than the previous year to a record 189.7 million bags due to record output in Brazil, Ethiopia, Uganda, and Vietnam. These gains more than compensate for losses in India and Indonesia. World coffee bean exports are forecast 11.9 million bags higher to a record 131.4 million on these output gains. Global consumption is expected to rise to a record 179.7 million bags, with the largest gains occurring in the European Union and the United States. Ending stocks are expected to rise for a second consecutive year to 26.3 million bags ((United States Department of Agriculture, Coffee: World Markets and Trade report-July 2026).

7. Local Situation

During the month of August 2026, farm gate prices ranged from UGX 5,500-6,000 per kilogram of Kiboko (Robusta dry cherries); UGX 11,500-12,500 for FAQ (Fair Average Quality); UGX 15,000-16,000 for Arabica Parchment; and UGX 14,000-15,000 per kilogram for Drugar. Robusta Kiboko averaged UGX 5,750 per kilogram higher than UGX 5,500 per kilogram previous month, Robusta FAQ averaged UGX 12,000 higher than UGX 11,500 per kilogram, Arabica parchment UGX 15,500 per kilogram, the same as the previous month. Drugar UGX 14,750 per kilogram higher than UGX 14,500 per kilogram previous month.

8. Coffee Development Activities

During the reporting period, 154 farmer training sessions reached 4,573 coffee farmers. The training focused on practical Good Agricultural Practices (GAPs) designed to improve productivity, resilience and coffee quality. Key areas covered included coffee garden establishment and layout, soil fertility management, weed management, fertilizer application, training and bending, field establishment and management, and preparation for second-season planting.

Special emphasis was placed on soil-moisture conservation and climate-smart agronomic practices to help farmers cope with increasingly dry conditions. Farmers were encouraged to integrate cover crops, bananas and shade trees into their coffee systems, while maintaining appropriate coffee canopy management.

Beyond group trainings, extension teams conducted 283 farm visits, providing tailored technical support to 1,222 farmers. The farm visits provided an opportunity for one-on-one assessment of individual coffee gardens and real-time technical advice. Extension officers focused on seedling survival assessment, pest and disease surveillance, gap filling and management of young coffee under prevailing dry conditions.

Efforts to strengthen governance and compliance across the coffee value chain also intensified during the reporting period. A total of 232 value chain actors, comprising 96 coffee buying stores, 126 hullers and 10 new factories, were inspected. The inspections focused on enforcing quality standards, strengthening traceability and improving compliance with sector regulations.

To improve market readiness, 9 training and sensitization workshops were conducted for 230 coffee traders and processors, comprising 181 men and 49 women. The sessions equipped participants with knowledge on EUDR requirements, traceability systems and coffee quality control.

Regulatory oversight also resulted in the licensing of 59 value chain actors, including 36 coffee hullers and 23 traders and coffee buying stores.

Efforts to strengthen the availability and quality of coffee planting materials also continued during the reporting period. A joint mother garden and nursery verification campaign was conducted in partnership with the National Coffee Research Institute (NaCORI) to assess the quality, compliance and readiness of planting materials being multiplied across the sub-region.

The campaign focused on assessing sites for formal certification, guiding nursery operators on standard operating procedures for the production of high-quality CWD-r coffee plantlets, and auditing available stocks to help meet the growing demand for planting materials.

A total of 169 mother gardens and nurseries operated by 169 (131 male and 38 female) nursery operators were visited. The operators included 18 youth and 18 elderly nursery operators. The verification exercise is expected to contribute to improved quality assurance in the production and distribution of coffee planting materials, while strengthening the capacity of nursery operators to meet the needs of farmers seeking improved planting materials.

10. Outlook for September 2026

Uganda's Coffee exports are projected to reach 700,000 60- kg bags in September 2026. The main harvest season in Greater Masaka and South Western region has ended.
